I am pleased to announce that a consolidated profit attributable to shareholders of HK\$360 million was recorded in 2006, and an increase in turnover of 54% from last year HK\$6,038 million to HK\$9,312 million.

Your Board of Directors has recommended a final dividend for 2006 of HK14 cents per share which, together with the interim dividend of HK12 cents per share paid on 8 November 2006, results in a total distribution for the year of HK26 cents per share.

In 2006, the Group continued to focus on the expansion of its global brands in the flat panel display market and concentrates mainly on Plasma and large size LCD television. The Branded Distribution Group Division has increased its contribution from 61% to 72% of the Group's total turnover in 2006 and it is anticipated that this division will achieve further growths in 2007. The Home Audio market continues to decline but this market is being replaced by the growth in flat panel display market. With the increased HDTV programming and widespread adoption of digital broadcasting across the globe over the next few years, the Group is confident of maximizing the potentials of the global brands in this market sector.

The Group's turnover also grew in 2006 as a result of expansion into new markets and increased distribution. To achieve this further growth, the Group invested in shelf space and additional promotional expenses, which led to a lower gross margin and higher distribution cost for the year. However, the Group is confident that this investment will enlarge the market share of the Brands as the Brands will have more visibility.

The Group's long term plan is to ensure the Brands become even more competitive in the market by enlarging its market share and enhance its value by delivering high value-added products to its customers. In the coming year the Group will stay focused on adding value to its Brands and products.

I am pleased to announce that the Electronic Manufacturing Services Group has made a return to profitability in 2006, after the previous years of rationalization and restructuring. The Group will continue to review the operations to derive greater contribution from this Division going forward.

With the increase in our shareholding of Emerson Radio Corp., listed on the American Stock Exchange, during 2006 to approximately 51%, we have fully consolidated this into the accounts. Along with this, we have also equity accounted for our interest in Sansui Electric Co. Ltd, listed on the Tokyo Stock exchange, which is different from our accounting treatment in 2005. This reflects our full compliance with international reporting standards, and which is also in accordance with the Hong Kong Financial Reporting Standards.

During 2006, the Group also disposed of shares in non-core subsidiaries with a view to simplifying its structure and realizing value for shareholders.

I would like to extend my appreciation to the management and the staff of the Group for their dedication, loyalty and commitment. I would also like to thank our shareholders, customers, suppliers and business associates for their continuing support and confidence in the Group.

**Christopher W. Ho**  
Chairman

Hong Kong, 11 April 2007

For the year 2006, profit attributable to shareholders was HK\$360 million as compared to HK\$302 million for the year 2005.

The total turnover was HK\$9,312 million for the year as compared to HK\$6,038 million for 2005. The gross profit from operating activities was HK\$1,013 million as compared to HK\$817 million for 2005.

The core business segments of the Group comprise The Branded Distribution Group and The Electronics Manufacturing Services Group. The Branded Distribution Group will continue to be the major contributor to turnover and profit for the Group representing 72% of consolidated turnover in 2006 as compared to 61% in 2005.

### **THE BRANDED DISTRIBUTION GROUP**

The Branded Distribution Group's turnover for 2006 was HK\$6,734 million as compared to HK\$3,707 million for 2005. With severe pricing pressure in global markets, the Group decided tactically to withdraw from the development and production of conventional audio and video products and to outsource these products to other qualified suppliers. The Group has instead focused on the development, production and sale of digital flat panel display products such as Plasma TV and LCD TV. During 2006, the Group successfully developed and launched a series of Plasma TV with screen size ranging from 42" to 63" and LCD TV from 26" to 52".

In addition to the Group's existing portfolio of Nakamichi, Akai and Sansui brands, the Group acquired in December 2005 a 37% equity interest in Emerson Radio Corp. ("Emerson"), a company listed on the American Stock Exchange of the United States of America. Subsequent to that date the Group increased its shareholding in Emerson to approximately 51% through the purchase of stock in the open market. With the acquisition, the Group has assumed the management of the distribution and the licensing of the Emerson brand.

Nakamichi continues to be the Group's flagship premium brand focusing on top end lifestyle entertainment products. Riding on the exponential growth in global demand for Plasma TV and LCD TV, Nakamichi introduced the LUMI series of high end Plasma TV with screen size ranging from 42" to 63". Nakamichi will continue to expand its present LUMI range of Plasma TV to include larger screen sizes, with full high definition resolution display. On the LCD TV, Nakamichi will introduce its first series of full high definition LCD TV, KIMONO, in the first quarter of 2007. Nakamichi made its first foray into the stand alone speakers market with the showcase of its new Electrostatic Speakers ("ESL") at the IFA Show in Berlin in October 2006. Both KIMONO LCD TV and ESL speakers received prestigious CES Innovation Award at Las Vegas CES show in January 2007.

Akai and Sansui are mass marketed consumer electronic brands targeting consumers looking for mid to high end audio, video and display products. Akai and Sansui have been successful in meeting consumers' demand for flat panel display products with their comprehensive range of Plasma TV and LCD TV. Akai and Sansui will continue to expand their range to include larger screen sizes and with full high definition resolutions display. In PRC, Akai's and Sansui's strategy of focusing on higher end products rather than the low end segment which competes purely on pricing has paid off handsomely with increased market share. In addition, Akai and Sansui products are widely known for their excellent quality in the PRC. As a result of the Group's continuous effort to expand its global distribution network, Akai and Sansui products are available in most parts of the world.

Emerson is one of the best known brands in America focusing on low to mid end consumer electronic products and appliances. Through the Group's global distribution network, Emerson has expanded its distribution to Europe and Asia Pacific.

In recognition of the huge potential in the global flat panel display market, the Group has expanded its production capacity in the PRC and enhanced its production efficiency by acquiring additional advanced plant and machinery. The Group has a strong product line up which meets both the specifications and pricing requirements of the major markets in North America, Europe and Asia.

During 2006, the Group successfully launched a wide variety of flat panel display products in North America. The sales turnover for North America increased from HK\$1,580 million to HK\$4,277 million in 2006. To support the expansion into the European markets which is by far the biggest market for LCD TV, the Group acquired a manufacturing plant in Denmark for the production and distribution of flat panel display products specifically for that region. After re-organisation, the plant started its production in October 2006 and will become the Group's headquarters for its growth into Europe.

The Group will continue to invest in its product development, production facilities, supply chain management and global distribution network to realize the full potential of the Group's portfolio of international brands.

### **THE ELECTRONIC MANUFACTURING SERVICES GROUP**

The Electronic Manufacturing Services Group ("EMS") comprises two primary divisions, Lafe Technology Limited ("Lafe") and Tomei Technologies Limited ("Tomei"). Lafe is a leading manufacturer of recording heads and related assemblies for hard disc drives and optical drives in the global storage market. Tomei manufactures video products on behalf of major global brands.

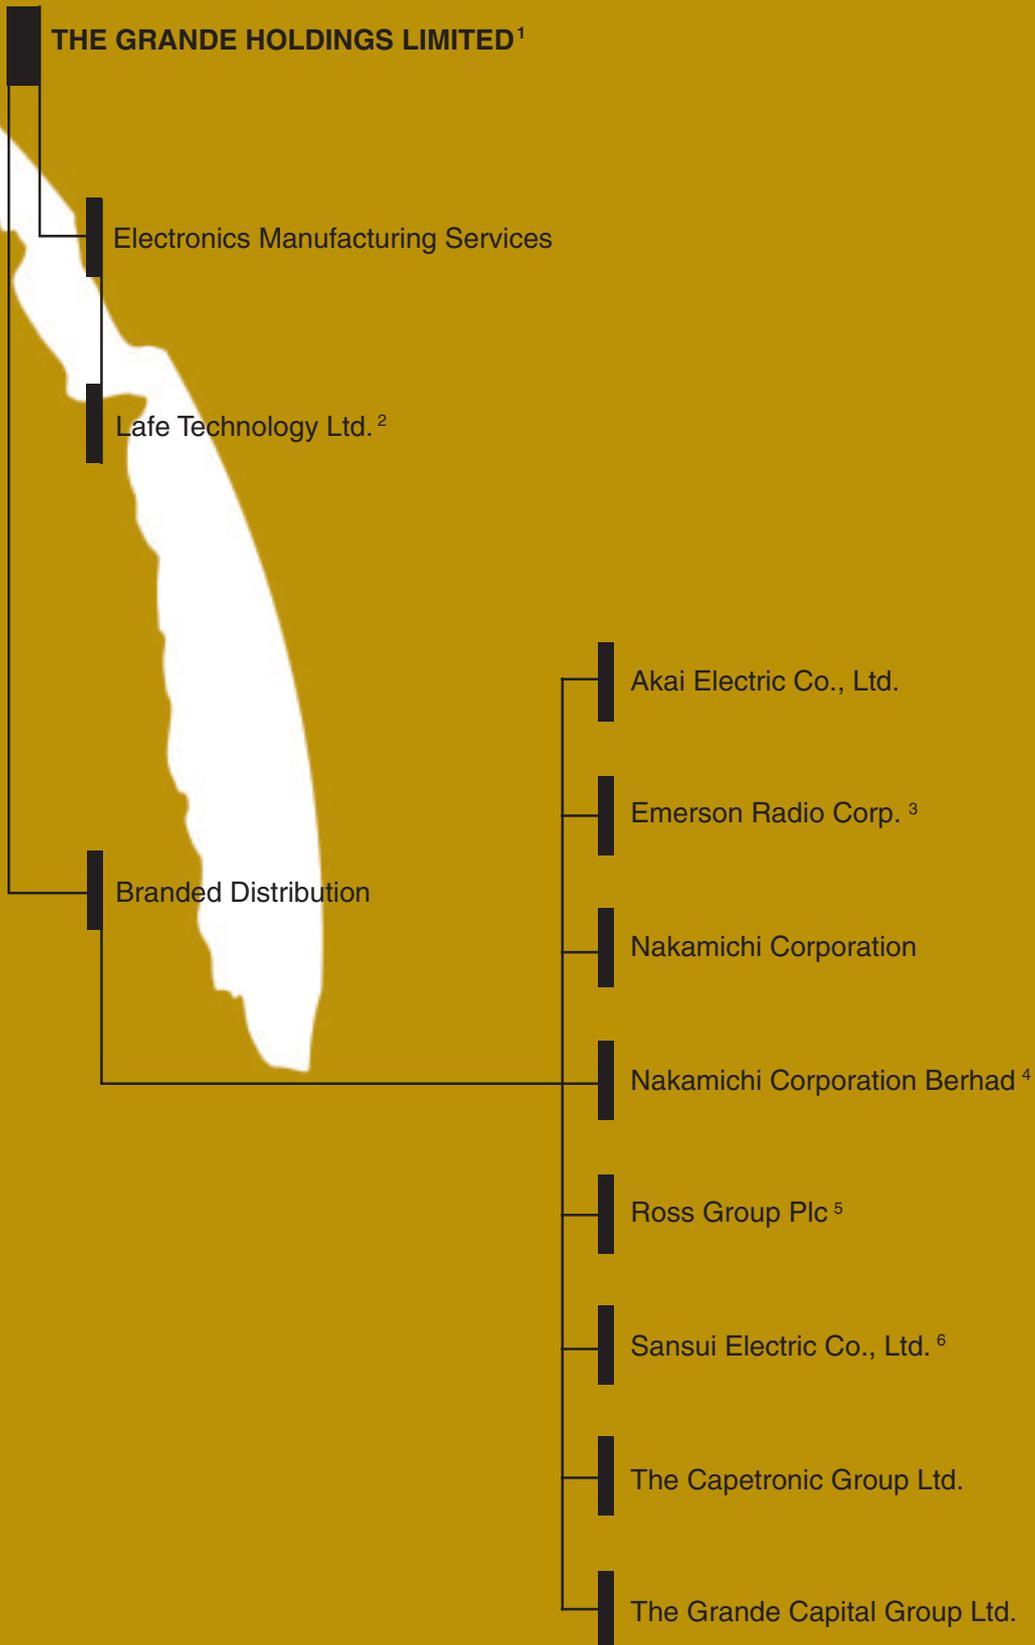

The EMS turnover for 2006 was HK\$2,578 million as compared to HK\$2,331 million in 2005. The increase was attributed to the production of higher value products such as High Definition DVD and Hard Disk DVD recorders by Tomei during the year.

The EMS operating profit for 2006 was HK\$46 million as compared to an operating loss of HK\$54 million in 2005. The improvement was a direct result of Tomei's success in streamlining its production facilities and phasing out production of the low margin products. During the year, Lafe continued to suffer from global pricing pressure on recording heads. Lafe has been working in collaboration with its customers in the development of more new products and increasing the value added content in order to remain competitive in the market.

The board of directors (“Board”) of the Company is pleased to present this Corporate Governance Report in the Group’s annual report for the year ended 31 December 2006.

## **CORPORATE GOVERNANCE PRACTICES**

The Board of the Company believes that good corporate governance practices are increasingly important for maintaining and promoting shareholder value and investor confidence.

The Company has applied the principles as set out in the Code on Corporate Governance Practices (“CG Code”) contained in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Stock Exchange”) (“Listing Rules”).

In the opinion of the directors, the Company has complied with all the code provisions set out in the CG Code throughout the year under review.

The Company will continue to enhance its corporate governance practices appropriate to the conduct and growth of its business and to review its corporate governance practices from time to time to ensure they comply with the CG Code and align with the latest developments.

## **THE BOARD**

### **RESPONSIBILITIES**

The Board is responsible for the leadership and control of the Company and oversees the Group’s businesses, strategic decisions and performances. The senior management was delegated the authority and responsibilities by the Board for the day-to-day management and operations of the Group. In addition, the Board has also established Board committees and has delegated to these Board committees various responsibilities set out in their terms of reference respectively.

Every director shall ensure that he carries out his duty in good faith and in compliance with the standards of applicable laws and regulations, and acts in the interests of the Company and its shareholders at all times.

### **BOARD COMPOSITION**

The Board currently comprises nine members, consisting of six executive directors and three independent non-executive directors.

The Board of the Company comprises the following directors:

#### **Executive directors:**

Mr. Christopher W. Ho (*Chairman*)  
Mr. Adrian C. C. Ma (*Group Managing Director/Chief Executive Officer*)  
Mrs. Christine L. S. Asprey  
Mr. Michael A. B. Binney  
Mr. C. F. Lam  
Mr. Paul K. F. Law

#### **Independent non-executive directors:**

Mr. Johnny W. H. Lau  
Mr. Herbert H. K. Tsoi  
Mr. Martin I. Wright

The list of directors (by category) is also disclosed in all corporate communications issued by the Company pursuant to the Listing Rules from time to time. The independent non-executive directors are expressly identified in all corporate communications pursuant to the Listing Rules.

The relationships among the members of the Board are disclosed under “Brief Biographical Details in Respect of Directors” on page 25.

During the year ended 31 December 2006, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive directors with at least one independent non-executive director possessing appropriate professional qualifications, or accounting or related financial management expertise.

The Company has received written annual confirmation from each independent non-executive director of his independence pursuant to the requirements of the Listing Rules. The Company considers all independent non-executive directors to be independent in accordance with the independence guidelines set out in the Listing Rules.

All directors, including independent non-executive directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning. Independent non-executive directors are invited to serve on the Audit, Remuneration and Nomination Committees of the Company.

### **CHAIRMAN AND CHIEF EXECUTIVE OFFICER**

The roles and duties of the Chairman and the Chief Executive Officer of the Company are carried out by different individuals and have been clearly defined in writing.

The Chairman of the Board is Mr. Christopher W. Ho, who provides leadership for the Board and is also responsible for chairing the meetings and managing the operations of the Board and ensuring that all major and appropriate issues are discussed by the Board in a timely and constructive manner. The Chief Executive Officer is Mr. Adrian C. C. Ma, who is responsible for running the Company's businesses and implementing the Group's strategic plans and business goals.

### **APPOINTMENT AND RE-ELECTION OF DIRECTORS**

Each of the executive directors of the Company is engaged on a service contract and each of the independent non-executive directors is subject to retirement by rotation pursuant to the Company's Bye-laws. The appointment may be terminated by not less than one month's written notice.

In accordance with the Company's Bye-laws which were amended by a special resolution at the annual general meeting held on 26 June 2006 for the purpose of compliance with the CG Code, all directors of the Company are subject to retirement by rotation at least once every three years and any new director appointed to fill a causal vacancy shall submit himself / herself for re-election by shareholders at the first general meeting after appointment.

The procedures and process of appointment, re-election and removal of directors are laid down in the Company's Bye-laws. The Nomination Committee is responsible for reviewing the Board composition, monitoring the appointment and succession planning of directors and assessing the independence of independent non-executive directors.

### **NOMINATION COMMITTEE**

The Nomination Committee comprises three members, namely Mr. Johnny W. H. Lau (Chairman), Mr. Christopher W. Ho and Mr. Herbert H. K. Tsoi, the majority of them are independent non-executive directors.

The principal duties of the Nomination Committee include reviewing the Board composition, developing and formulating relevant procedures for nomination and appointment of directors, making recommendations to the Board on the appointment and succession planning of directors, and assessment of the independence of the independent non-executive directors. An external recruitment agency may be engaged to carry out the recruitment and selection process when necessary.

The Nomination Committee met once during the year ended 31 December 2006 and reviewed the structure, size and composition of the Board to ensure that it has a balance of expertise, skills and experience appropriate for the requirements of the business of the Company.

In accordance with the Company's Bye-laws, Mr. Christopher W. Ho, Mr. Herbert H. K. Tsoi and Mrs. Christine L. S. Asprey shall retire by rotation and being eligible, offer themselves for re-election at the 2007 annual general meeting.

The Nomination Committee recommended the re-appointment of the directors standing for re-election at the 2007 annual general meeting of the Company.

The Company's circular dated 17 April 2007 contains detailed information of the directors standing for re-election.

The Nomination Committee held one meeting during the year ended 31 December 2006 and the attendance records are set out below:

<b>Name of Directors</b>	<b>Attendance/Number of Meetings</b>
Mr. Johnny W. H. Lau	1/1
Mr. Christopher W. Ho	1/1
Mr. Herbert H. K. Tsoi	1/1

## **INDUCTION AND CONTINUING DEVELOPMENT FOR DIRECTORS**

There was no director newly appointed during the year ended 31 December 2006. In case there is any newly appointed directors, he/she shall receive induction on the first occasion of his/her appointment, so as to ensure that he/she has appropriate understanding of the business and operations of the Company and that he/she is fully aware of his/her responsibilities and obligations under the Listing Rules and relevant regulatory requirements.

The directors are continually updated with legal and regulatory developments, and the business and market changes to facilitate the discharge of their responsibilities. Continuing briefings and professional development to directors will be arranged whenever necessary.

## **BOARD MEETINGS**

### **Board Practices and Conduct of Meetings**

Annual meeting schedules and draft agenda of each meeting are normally made available to directors in advance.

Notices of regular Board meetings are served to all directors at least 14 days before the meetings. For other Board and committee meetings, reasonable notice is generally given.

Board papers together with all appropriate, complete and reliable information are sent to all directors at least 3 days before each Board meeting or committee meeting to keep the directors apprised of the latest developments and financial position of the Company and to enable them to make informed decisions. The Board and each director also have separate and independent access to the senior management whenever necessary.

The Chief Executive Officer and the Company Secretary attend all regular Board meetings while the Chief Financial Officer and Qualified Accountant attend most of the regular Board meetings and when necessary, other Board and committee meetings to advise on business developments, financial and accounting matters, statutory compliance, corporate governance and other major aspects of the Company.

The Company Secretary is responsible to take and keep minutes of all Board meetings and committee meetings. Draft minutes are normally circulated to directors for comment within a reasonable time after each meeting and the final version is open for directors' inspection.

According to current Board practice, any material transaction, which may involve a conflict of interests for a substantial shareholder or a director, will be considered and dealt with by the Board at a duly convened Board meeting. The Company's Bye-laws also contains provisions requiring directors to abstain from voting and not to be counted in the quorum at meetings for approving transactions in which such directors or any of their associates have a material interest.

#### **Directors' Attendance Records**

During the year ended 31 December 2006, five regular Board meetings were held at approximately quarterly intervals for reviewing and approving the financial and operating performance, and considering and approving the overall strategies and policies of the Company.

The attendance records of each director at the Board meetings during the year ended 31 December 2006 are set out below:

<b>Name of Directors</b>	<b>Attendance/Number of Meetings</b>
Mr. Christopher W. Ho	5/5
Mr. C. F. Lam	2/5
Mr. Michael A. B. Binney	3/5
Mrs. Christine L. S. Asprey	5/5
Mr. Adrian C. C. Ma	5/5
Mr. Paul K. F. Law	0/5
Mr. Herbert H. K. Tsoi	5/5
Mr. Johnny W. H. Lau	4/5
Mr. Martin I. Wright	5/5

#### **MODEL CODE FOR SECURITIES TRANSACTIONS**

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 to the Listing Rules.

Specific enquiry has been made of all the directors and the directors have confirmed that they have complied with the Model Code throughout the year ended 31 December 2006.

The Company also has established written guidelines on no less exacting terms than the Model Code (the "Employees Written Guidelines") for securities transactions by employees who are likely to be in possession of unpublished price-sensitive information of the Company.

No incident of non-compliance of the Employees Written Guidelines by the employees was noted by the Company.

#### **DELEGATION BY THE BOARD**

The Board takes responsibility for all major matters of the Company, including: the approval and monitoring of all policy matters, overall strategies and budgets, internal control and risk management systems, material transactions (in particular those may involve conflict of interests), financial information, appointment of directors and other significant financial and operational matters.

All directors have full and timely access to all relevant information as well as the advice and services of the Company Secretary, with a view to ensuring that Board procedures and all applicable rules and regulations are followed. Each director is normally able to seek independent professional advice in appropriate circumstances at the Company's expense, upon making request to the Board.

The day-to-day management, administration and operation of the Company are delegated to the Chief Executive Officer and the senior management. The delegated functions and work tasks are periodically reviewed. Approval has to be obtained from the Board prior to any significant transactions entered into by the abovementioned officers.

The Board has established three committees, namely, the Nomination Committee, Remuneration Committee and Audit Committee, for overseeing particular aspects of the Company's affairs. All Board committees of the Company are established with defined written terms of reference which are posted on the Company's website and are available to shareholders upon request.

The Board also has the full support of the Chief Executive Officer and the senior management to discharge its responsibilities.

## REMUNERATION OF DIRECTORS AND SENIOR MANAGEMENT

The Company has established a formal and transparent procedure for formulating policies on remuneration and senior management of the Group. Details of the remuneration of each of the directors of the Company for the year ended 31 December 2006 are set out on page 53 in note 9 to the financial statements.

### REMUNERATION COMMITTEE

The Remuneration Committee comprises three members, namely Mr. Herbert H. K. Tsoi (Chairman), Mr. Christopher W. Ho and Mr. Johnny W. H. Lau, the majority of them are independent non-executive directors.

The primary functions of the Remuneration Committee include making recommendations on and approving the remuneration policy and structure and remuneration packages of the executive directors and the senior management. The Remuneration Committee is also responsible for establishing transparent procedures for developing such remuneration policy and structure to ensure that no director or any of his/her associates will participate in deciding his/her own remuneration, which remuneration will be determined by reference to the performance of the individual and the Company as well as market practice and conditions.

The Remuneration Committee has reviewed the remuneration policy and structure of the Company, and the remuneration packages of the executive directors and the senior management for the year under review.

The Remuneration Committee held one meeting during the year ended 31 December 2006 and the attendance records are set out below:

Name of Directors	Attendance/Number of Meetings
Mr. Herbert H. K. Tsoi	1/1
Mr. Christopher W. Ho	1/1
Mr. Johnny W. H. Lau	1/1

## ACCOUNTABILITY AND AUDIT

### DIRECTORS' RESPONSIBILITIES IN RESPECT OF FINANCIAL STATEMENTS

The directors acknowledge their responsibility for preparing the financial statements of the Company for the year ended 31 December 2006.

The Board is responsible for presenting a balanced, clear and understandable assessment of annual and interim reports, price-sensitive announcements and other disclosures required under the Listing Rules and other regulatory requirements.

The Management provides such explanation and information to the Board so as to enable the Board to make an informed assessment of the financial information and position of the Company put to the Board for approval.

There is no material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

**INTERNAL CONTROLS**

During the year under review, the Board has conducted a review of the effectiveness of the internal control system of the Company.

The Board is responsible for maintaining an adequate internal control system to safeguard shareholder investments and Company assets and reviewing the effectiveness of such system on an annual basis.

The internal control system of the Group is designed to facilitate effective and efficient operations, to ensure reliability of financial reporting and compliance with applicable laws and regulations, to identify and manage potential risks and to safeguard assets of the Group. The internal auditor shall review and evaluate the control process and monitor any risk factors on a regular basis and report to the Audit Committee on any findings and measures to address the variances and identified risks.

**AUDIT COMMITTEE**

The Audit Committee comprises three independent non-executive directors, namely Mr. Martin I. Wright (Chairman), Mr. Herbert H. K. Tsoi and Mr. Johnny W. H. Lau (all the independent non-executive directors possess the appropriate professional qualifications or accounting or related financial management expertise). None of the members of the Audit Committee is a former partner of the Company's existing external auditors.

The main duties of the Audit Committee include the following:

- To review the financial statements and reports and consider any significant or unusual items raised by the qualified accountant, internal auditor or external auditors before submission to the Board.
- To review the relationship with the external auditors by reference to the work performed by the auditors, their fees and terms of engagement, and make recommendation to the Board on the appointment, re-appointment and removal of external auditors.
- To review the adequacy and effectiveness of the Company's financial reporting system, internal control system and risk management system and associated procedures.

The Audit Committee provides supervision on the internal controls system of the Group and reported to the Board on any material issues and makes recommendations to the Board.

During the year under review, the Audit Committee has reviewed the Group's annual results and annual report for the year ended 31 December 2006, the financial reporting and compliance procedures, the report of Internal Auditor on the Company's internal control and risk management review and processes and the re-appointment of the external auditors.

There is no different view taken by the Audit Committee from the Board regarding the selection, appointment, resignation or dismissal of external auditors.

The Audit Committee held five meetings during the year ended 31 December 2006 and the attendance records are set out below:

<b>Name of Directors</b>	<b>Attendance/Number of Meetings</b>
Mr. Martin I. Wright	5/5
Mr. Herbert H. K. Tsoi	5/5

	<hr/>
Total	12.4
	<hr/>

**COMMUNICATIONS WITH SHAREHOLDERS AND INVESTORS**

The general meetings of the Company provide a forum for communication between the Board and the shareholders. The Chairman of the Board as well as chairmen of the Nomination Committee, Remuneration Committee and Audit Committee or, in their absence, other members of the respective committees and, where applicable, the independent Board committee, are available to answer questions at the shareholders' meetings.

To promote effective communication, the Company maintains a website at [www.grandeholdings.com](http://www.grandeholdings.com), where up-to-date information and updates on the Company's business developments and operations, financial information, corporate governance practices and other information are available for public access. Investors may write directly to the Company at its corporate office in Hong Kong for any inquiries.

**SHAREHOLDER RIGHTS**

To safeguard the shareholders' interests and rights, separate resolutions are proposed at shareholders' meetings on each substantial issue, including the election of individual directors.

The rights of shareholders and the procedures for demanding a poll on resolutions at shareholders' meetings at which voting is taken on a poll are contained in the Company's Bye-laws. Details of such rights to demand a poll were included in all circulars to shareholders and will be explained during the proceedings of meetings.

Poll results will be published in newspapers on the business day following the shareholders' meeting and posted on the websites of the Company and of the Stock Exchange.

On behalf of the Board

**Christopher W Ho**  
*Chairman*

Mr. Martin I. Wright

In accordance with clause 99 of the Bye-Laws of the Company, Mrs. Christine L. S. Asprey, Mr. Christopher W. Ho and Mr. Herbert H. K. Tsoi will retire and, being eligible, will offer themselves for re-election at the forthcoming annual general meeting. The directors who are proposed for re-election do not have any unexpired service contract with the Company.

**DIRECTORS' INTERESTS IN CONTRACTS**

No director had a beneficial interest, either direct or indirect, in any significant contract to which the Company or any of its subsidiaries was a party at the balance sheet date or at any time during the year.

There were no unexpired service contracts which are not determinable by the Company within one year without compensation, other than statutory payments, in respect of any director proposed for re-election at the forthcoming annual general meeting.

**DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES**

The share option scheme adopted by the Company on 26 November 1990 has expired and there are no options outstanding as at the date of this report.

Apart from the foregoing, at no time during the year was the Company or any of its subsidiaries a party to any arrangement to enable the Company's directors, their respective spouse or children under 18 years of age, to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

**DIRECTORS' INTERESTS IN SHARE CAPITAL**

At the balance sheet date, the interests of the directors and chief executives of the Company in the shares and underlying shares of the Company or its associated corporations, if any, (within the meaning of Part XV of the Securities and Futures Ordinance ("SFO")) which were required to be notified to the Company and The Stock Exchange of Hong Kong Limited ("HKSE") pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which he/she was deemed or taken to have under such provisions of the SFO) or which were required, pursuant to Section 352 of the SFO, to be entered in the register referred to therein, or which were required, pursuant to the Model Code, to be notified to the Company and HKSE were as follows:

**LIQUIDITY AND FINANCIAL RESOURCES**

As at 31 December 2006, the Group had total assets of HK\$7,987 million which were financed by shareholders' funds of HK\$2,993 million, minority interests of HK\$963 million and total liabilities of HK\$4,031 million. The Group had a current ratio of approximately 1.13 as compared to that of approximately 1.17 at 31 December 2005.

As at 31 December 2006, the Group had HK\$734 million cash and bank balances. The Group's working capital requirements were mainly financed by internal resources and short-term borrowings which were charged by banks at fixed and floating interest rates as detailed in note 28 to the financial statements. As at 31 December 2006, the Group had HK\$828 million short-term bank borrowings and HK\$647 million bank overdrafts.

The Group had inventories of approximately HK\$953 million as at 31 December 2006 representing an increase of HK\$298 million compared to the previous year.

At the year end, the Group's gearing ratio was 30% which is calculated based on the Group's net borrowings of HK\$1,202 million (calculated as total interest-bearing borrowings less cash and bank balances) and total equity of HK\$3,956 million.

## **CHARGES ON GROUP ASSETS**

At 31 December 2006, certain of the Group's assets with a total net book value of approximately HK\$1,666 million have been pledged to banks to secure banking facilities granted to the Group. Details are set out in note 39 to the financial statements.

## **TREASURY POLICIES**

The Group's major borrowings are in US dollars, Singapore dollars and HK dollars. All borrowings are based on LIBOR or Hong Kong best lending rates. As the Group's revenues are mainly in US dollars, and major borrowings and payments are in either US dollars, Renminbi or HK dollars, there is a natural hedge mechanism in place and currency risk exposure is relatively low. The Group has a strong treasury management function and will continue to manage its currency and interest rate exposures.

## **EMPLOYEES AND REMUNERATION POLICIES**

The number of employees of the Group as at 31 December 2006 was approximately 9,000. The Group remunerated its employees mainly based on industry practice, individual's performance and experience. Apart from the basic remuneration, a discretionary bonus may be granted to eligible employees by reference to the Group's performance as well as to an individual's performance. Other benefits include medical and retirement schemes.

## **PURCHASE, SALE OR REDEMPTION OF OWN LISTED SECURITIES**

Neither the Company, nor any of its subsidiaries purchased, redeemed or sold any of the Company's listed securities during the year.

## **SIGNIFICANT INVESTMENTS**

In December 2005, the Group acquired 37% of the issued share capital of Emerson Radio Corp. The Group has increased its shareholding to 51% during the year 2006 through purchase of stock on the American Stock Exchange of United States of America.

During the year, the Group reduced its shareholding interests in Sansui Electric Co., Ltd ("SEC") from 49.51% at 31 December 2005 to 29.99% at 31 December 2006. The investment in SEC has since April 2006 been accounted for as an associate. The details are set out in note 16 to the financial statements.

## **CONTINGENT LIABILITIES**

As at 31 December 2006, the Group had contingent liabilities of approximately HK\$15 million in respect of a guarantee for banking facilities granted to a former associate.

## **PRE-EMPTIVE RIGHTS**

There are no provisions for pre-emptive rights under the Company's Bye-Laws or the laws in Bermuda which would oblige the Company to offer new shares on a pro rata basis to existing shareholders.

## **CONNECTED TRANSACTIONS**

Significant related party transactions entered by the Group during the year ended 31 December 2006, which constitute connected transactions under the Listing Rules is disclosed in note 6 to the financial statements.

## **AUDIT COMMITTEE**

The principal activities of the Audit Committee include the review and supervision of the Group's financial reporting process and internal controls. The Audit Committee has reviewed the financial statements of the Group for the year ended 31 December 2006.

The Audit Committee comprises three independent non-executive directors, namely Mr. Herbert H. K. Tsoi, Mr. Johnny W. H. Lau and Mr. Martin I. Wright.

## **CORPORATE GOVERNANCE**

The Company's corporate governance principles and practices are set out in the Corporate Governance Report on pages 14 to 20 of this Annual Report.

## **MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS**

The Company has adopted the Model Code for Securities Transactions by Directors as set out in Appendix 10 to the Listing Rules as its own code of conduct regarding securities transactions by the directors of the Company (the "Code"). Having made specific enquiry of the directors of the Company, all the directors confirmed that they had complied with the required standards as set out in the Code during the year ended 31 December 2006.

## **SUFFICIENCY OF PUBLIC FLOAT**

Based on information that is publicly available to the Company and within the knowledge of the directors up to the date of this report, the Company has sufficient public float as required under the Listing Rules.

## **AUDITORS**

During the year, Messrs. Deloitte Touche Tohmatsu, who acted as auditors of the Company for the past 6 years, resigned and Messrs. Moore Stephens were appointed as auditors of the Company. Messrs. Moore Stephens retire and a resolution for their reappointment as auditors of the Company will be proposed at the forthcoming annual general meeting.

Independent Auditors' Report  
to the Shareholders of  
**The Grande Holdings Limited**  
*(Incorporated in Bermuda with limited liability)*

We have audited the consolidated financial statements of The Grande Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 31 to 84, which comprise the consolidated balance sheet as at 31 December 2006, and the consolidated income statement, the consolidated statement of recognised income and expenses and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

**DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation and the true and fair presentation of these consolidated financial statements in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

**AUDITORS' RESPONSIBILITY**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and true and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**1. GENERAL**

The Company is incorporated in Bermuda as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited. The Company's immediate holding company is Barrican Investments Corporation, a company incorporated in the British Virgin Islands. In the opinion of the directors, the ultimate holding company is The Grande International Holdings Limited, a company incorporated in the British Virgin Islands.

During the year, the Company acted as an investment holding company. The principal activities of the principal subsidiaries and associates are set out in notes 42 and 16, respectively.

The financial statements are presented in Hong Kong dollars, which is the same as the functional currency of the Company.

The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information on page 7 of the annual report.

**2. APPLICATION OF HONG KONG FINANCIAL REPORTING STANDARDS**

In the current year, the Group has applied, for the first time, a number of new Hong Kong Financial Reporting Standards, amendments and interpretations (new "HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), which are effective for accounting periods beginning on or after 1 January 2006. The adoption of these new HKFRSs below does not result in substantial changes to the Group's accounting policies and has no significant effect on the results for the current or prior accounting periods. Accordingly, no prior period adjustment has been required.

HKAS 19 (Amendment)	Actuarial gains and losses, group plans and disclosures
HKAS 21 (Amendment)	Net investment in a foreign operation
HKAS 39 (Amendment)	Cash flow hedge accounting of forecast intragroup transactions
HKAS 39 (Amendment)	The fair value option
HKAS 39 & HKFRS 4 (Amendments)	Financial guarantee contracts
HKFRS 6	Exploration for and evaluation of mineral resources
HK(IFRIC) – Int 4	Determining whether an arrangement contains a lease
HK(IFRIC) – Int 5	Rights to interests arising from decommissioning, restoration and environmental rehabilitation funds
HK(IFRIC) – Int 6	Liabilities arising from participating in a specific market-waste electrical and electronic equipment

## 2. APPLICATION OF HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

The Group has not early applied the following new HKFRSs that have been issued but are not yet effective for the year ended 31 December 2006, and is in the process of assessing their impact on future accounting periods.

HKAS 1 (Amendment)	(i)	Capital disclosures
HKFRS 7	(i)	Financial instruments: Disclosures
HKFRS 8	(ii)	Operating segments
HK(IFRIC) – Int 7	(iii)	Applying the restatement approach under HKAS 29 “Financial reporting in hyperinflationary economies”
HK(IFRIC) – Int 8	(iv)	Scope of HKFRS 2
HK(IFRIC) – Int 9	(v)	Reassessment of embedded derivatives
HK(IFRIC) – Int 10	(vi)	Interim financial reporting and impairment
HK(IFRIC) – Int 11	(vii)	HKFRS 2 – Group and treasury share transactions
HK(IFRIC) – Int 12	(viii)	Service concession arrangements

- (i) Effective for annual periods beginning on or after 1 January 2007.
- (ii) Effective for annual periods beginning on or after 1 January 2009.
- (iii) Effective for annual periods beginning on or after 1 March 2006.
- (iv) Effective for annual periods beginning on or after 1 May 2006.
- (v) Effective for annual periods beginning on or after 1 June 2006.
- (vi) Effective for annual periods beginning on or after 1 November 2006.
- (vii) Effective for annual periods beginning on or after 1 March 2007.
- (viii) Effective for annual periods beginning on or after 1 January 2008.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of preparation

The consolidated financial statements have been prepared under the historical cost basis except for certain properties and financial instruments, which are measured at revalued amounts or fair values, as explained in the accounting policies set out below. The consolidated financial statements have been prepared in accordance with HKFRS issued by HKICPA. In addition, the consolidated financial statements included applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) and by the Hong Kong Companies Ordinance.

The preparation of consolidated financial statements in conformity with HKFRSs requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Judgement made by management in the application of HKFRSs that have significant effect in the consolidated financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 4.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Basis of consolidation**

The consolidated financial statements include the financial statements of the Company and all its subsidiaries for the year ended 31 December 2006. Subsidiaries are considered to be controlled if the Company has the power, directly or indirectly, to govern the financial and operating policies, so as to obtain benefits from their activities. The results of subsidiaries acquired or disposed of during the year are consolidated from or to their respective dates of acquisition or disposal, respectively. All intercompany transactions and balances within the Group are eliminated on consolidation.

Minority interests in the net assets of consolidated subsidiaries are presented separately from the Group's equity therein. Minority interests in the net assets consist of the amount of those interests at the date of the original business combination and the minority's share of changes in equity since the date of the combination. Losses applicable to the minority in excess of the minority's interest in the subsidiary's equity are allocated against the interests of the Group except to the extent that the minority has a binding obligation and is able to make an additional investment to cover the losses.

#### **Revenue recognition**

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following basis:

- on the sale of goods, when the goods are delivered and title, significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- on the rendering of services, based on the stage of completion of the transaction, provided that this and the costs incurred as well as the estimated costs to completion can be measured reliably. The stage of completion of a transaction associated with the rendering of services is established by reference to the costs incurred to date as compared to the total costs to be incurred under the transaction;
- interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount;
- income from properties held for sale is recognised on the execution of a binding sales agreement;
- income from sale of investments held for trading is recognised on a trade-date basis and the execution of a binding contract; and
- royalties income is recognised on an accrual basis in accordance with the substance of the relevant agreement.

#### **Associates**

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*Continued*)

#### **Associates (*Continued*)**

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. Under the equity method, investments in associates are carried in the consolidated balance sheet at cost as adjusted for post-acquisition changes in the Group's share of the profit or loss and of changes in equity of the associate, less any identified impairment loss. When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. An additional share of losses is provided for and a liability is recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associate.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognised at the date of acquisition is recognised as goodwill. The goodwill is included within the carrying amount of the investment and is assessed for impairment as part of the investment. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in income statement.

Where a group entity transacts with an associate of the Group, profits and losses are eliminated to the extent of the Group's interest in the relevant associate.

#### **Goodwill**

Goodwill arising on acquisitions represents the excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary recognised at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a subsidiary or an associate, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

#### **Discount on acquisition**

A discount on acquisition arising on an acquisition of a subsidiary or an associate represents the excess of the net fair value of an acquiree's identifiable assets, liabilities and contingent liabilities over the cost of the business combination. Discount on acquisition is recognised immediately in income statement. A discount on acquisition arising on an acquisition of an associate is included as income in the determination of the investor's share of results of the associate in the period in which the investment is acquired.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****Segment reporting**

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

In accordance with the Group's internal management reporting, the Group has determined that business segments be presented as the primary reporting format and geographical as the secondary reporting format. Inter-segment transfer pricing is based on cost plus an appropriate margin.

Segment revenue, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis to that segment. Segment revenue, expenses, assets and liabilities are determined before inter-segment balances and inter-segment transactions are eliminated as part of the consolidation.

Segment capital expenditure is the total cost incurred during the period to acquire segment assets that are expected to be used for more than one period.

**Property, plant and equipment**

Property, plant and equipment are stated at cost or valuation less accumulated depreciation and impairment losses, except for freehold land which is stated at cost less impairment loss and is not depreciated.

Advantage has been taken of the transitional relief provided by paragraph 80A of HKAS 16 "Property, plant and equipment" from the requirement to make regular revaluations of the Group's land and buildings which had been carried at revalued amounts prior to 30 September 1995, and accordingly no further revaluation of land and buildings is carried out. Prior to 30 September 1995, the revaluation increase arising on the revaluation of these assets was credited to reserve. Any future decreases in value of these assets will be dealt with as an expense to the extent that they exceed the balance, if any, on the reserve relating to a previous revaluation of the same asset. On the subsequent sale or retirement of a revalued asset, the corresponding revaluation surplus is transferred to retained profits.

Depreciation is calculated on the straight-line basis to write off the cost or valuation of each asset over its estimated useful life as set out below:

Freehold buildings outside Hong Kong	5 to 50 years
Long-term leasehold buildings outside Hong Kong	45 years
Medium-term leasehold buildings in Hong Kong	20 to 40 years
Medium-term leasehold buildings outside Hong Kong	Over the lease terms
Plant, equipment and other assets	2 to 15 years
Moulds	2 to 5 years

The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Upon the disposal of properties which have been revalued, the relevant portion of the revaluation reserve attributable to the properties realised is transferred directly to retained profits as a reserve movement.

An item of property, plant and equipment is derecognised upon disposal or when on future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the income statement in the year in which the item is derecognised.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****Land use rights**

Land use rights represented the prepaid lease payments of leasehold interests in land under operating lease arrangements and are amortised on a straight-line basis over the lease terms.

**Investment properties**

On initial recognition, investment properties are measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured using the fair value model. Gains or losses arising from changes in the fair value of investment property are included in income statement for the period in which they arise.

**Leased assets**

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases are included in property, plant and equipment and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to the income statement so as to provide a constant periodic rate of charge over the lease terms.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. The rentals applicable to such operating leases are charged to the income statement on the straight-line basis over the lease terms.

**Investments**

Investments are recognised and derecognised on a trade date basis where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the time frame established by the market concerned, and are initially measured at fair value, plus directly attributable transaction costs.

Investments in equity securities are classified as either investments held for trading or as available-for-sale, and are measured at subsequent reporting dates at fair value. For investments in equity available-for-sale that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments, they are measured at cost less any identified impairment losses at each balance sheet date subsequent to initial recognition. Where securities are held for trading purposes, gains and losses arising from changes in fair value are included in profit or loss for the period. For investments available-for-sale, gains and losses arising from changes in fair value are recognised directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognised in equity is included in the profit or loss for the period. Impairment losses recognised in profit or loss for equity investments classified as available-for-sale are not subsequently reversed through profit or loss.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. At each balance sheet date subsequent to initial recognition, loans and receivables (including trade receivables, bills receivable, other receivables, deposits and bank balances) are carried at amortised cost using the effective interest method, less any identified impairment losses. An impairment loss is recognised in income statement when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

#### Financial liabilities and equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted in respect of financial liabilities and equity instruments are set out below:

– Financial liabilities:

Financial liabilities including bank borrowings, other borrowings, trade and other payables are subsequently measured at amortised cost, using the effective interest rate method.

– Equity instruments:

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

#### Convertible notes and exchangeable bonds

Convertible notes are bonds convertible into shares of the issuer and are recognised by splitting the liability portion and the call option. The liability portion is initially recognised at fair value and is accounted for using the amortised cost method whilst the call option value, which is computed as the difference between the liability portion and the proceeds of the bonds issue, is included in a specific equity reserve or as a liability when the number of shares to be converted is variable. If the option is classified as a liability, it is measured at fair value.

Exchangeable bonds are bonds exchangeable into shares of entities other than the issuer and are recognised by splitting the liability portion and the call option. The liability portion is initially recognised at fair value and is accounted for using the amortised cost method whilst the call option is classified as a derivative liability and is carried at fair value.

Gains and losses arising from the changes in fair value are recognised in the income statement at each reporting date.

#### Derivative instruments

Derivative instruments are initially recognised at fair value on the contract date, and are remeasured to fair value at subsequent reporting dates. Changes in the fair value of derivative instruments that do not qualify for hedge accounting are recognised in income statement as they arise.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****Embedded derivatives**

Derivatives embedded in non-derivative host contracts are separated from the relevant host contracts and deemed as held-for-trading when the economic characteristics and risks of the embedded derivatives are not closely related to those of the host contracts, and the combined contracts are not measured at fair value through income statement. In all other circumstances, derivatives embedded are not separated and are accounted for together with the host contracts in accordance with appropriate standards. Where the Group needs to separate an embedded derivative but is unable to measure the embedded derivative, the entire combined contracts are treated as held-for-trading.

**Brands and trademarks**

The brands and trademarks with indefinite lives are not subject to amortisation, but are tested for impairment annually or more frequently when there are indications of impairment.

Gains or losses arising from derecognition of brands and trademarks are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the income statement when the asset is derecognised.

**Research and deferred development costs**

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development expenditure is recognised only if it is anticipated that the development costs incurred on a clearly-defined project will be recovered through future commercial activity. The resultant asset is amortised on a straight-line basis over its useful life, and carried at cost less subsequent accumulated amortisation and any accumulated impairment losses.

Where no internally-generated intangible asset can be recognised, development expenditure is charged to income statement in the period in which it is incurred.

**Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any further costs expected to be incurred to completion and disposal.

**Impairment of assets****– Tangible assets:**

At each balance sheet date, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of individual assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount under another accounting standard, in which case the impairment loss is treated as a revaluation decrease under that accounting standard.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****Impairment of assets (Continued)**

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, however, the increased carrying amount would not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another accounting standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that accounting standard.

## – Intangible assets:

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually by comparing their carrying amounts with their recoverable amounts, irrespective of whether there is any indication that they may be impaired. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years.

Intangible assets with finite useful lives are tested for impairment when there is an indication that an asset may be impaired.

**Foreign currencies**

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in its functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in income statement in the period in which they arise, except for exchange differences arising on a monetary item that forms part of the Group's net investment in a foreign operation, in which case, such exchange differences are recognised in equity in the consolidated financials statements. Exchange differences arising on the retranslation on non-monetary items carried at fair value are included in income statement for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity, in which cases, the exchange differences are also recognised directly in equity.

Goodwill and fair value adjustments arising on acquisitions of foreign operations prior to 1 January 2005 are treated as non-monetary foreign currency items of the Group and reported using the historical exchange rate prevailing at the date of the acquisition.

**Retirement benefit costs**

Payments to defined contribution retirement benefit plans and the Mandatory Provident Fund Scheme are charged as expenses as they fall due.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Provision for retirement and long service**

The provision for retirement and long service are provided based on the employees' basic salaries and their respective length of service in accordance with the applicable rules and regulations in their respective countries of employment. The amounts credited in the income statement represent the reversal of previous provisions no longer necessary.

#### **Borrowing costs**

Borrowing costs are interests and other costs incurred in connection with the borrowing of funds. All borrowing costs are charged to the income statement in the year in which they are incurred.

#### **Provisions**

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the balance sheet date of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the income statement.

#### **Tax**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years, and it further excludes income statement items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, except where the Group as the parent is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Cash and cash equivalents**

For the purpose of the consolidated cash flow statement, cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short term highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition, less advances from banks repayable within three months from the date of the advance. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents.

#### **Related parties**

A party is considered to be related to the Group if :

- (i) the party has the ability, directly or indirectly through one or more intermediaries, to control the Group or exercise significant influence over the Group in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence ;
- (ii) the party is a member of the key management personnel of the Group;
- (iii) the party is a close member of the family of any individual referred to in (i) or (ii) ;
- (iv) the party is an entity that is controlled, jointly controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (ii) or (iii) ; or
- (v) the party is a post-employment benefit plan for the benefit of employees of the Group, or of any entity that is a related party of the Group.

#### 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the process of applying the Group's accounting policies which are described in note 3, management has made the following estimates that have most significant effect on the amounts recognised in the financial statements. The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are also discussed below.

**(a) Impairment review of investments in associates**

The Group applies the requirements of HKAS 39 to determine whether it is necessary to recognise any additional impairment loss with respect to the Group's investments in associates. This determination requires significant judgement. In making this judgement, the Group evaluates, among other factors, the duration and extent to which the market values of investments in listed associates is less than their respective carrying amounts; and the financial health of and near-term business outlook for the investees, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

**(b) Impairment of property, plant and equipment, interests in leasehold land held for own use under operating leases**

If the circumstances indicate that the carrying values of property, plant and equipment, interests in leasehold land held for own use under operating leases may not be recoverable, the assets may be considered "impaired", and an impairment loss may be recognised in accordance with HKAS 36 "Impairment of assets". Under HKAS 36, these assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, expected cash flows generated by the asset are discounted to their present value, which requires significant judgement relating to level of sale volume, selling price and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on reasonable and supportable assumptions and projections of sale volume, selling price and amount of operating costs. However, actual sale volume, selling price and operating costs may be different from assumptions which may require a material adjustment to the carrying amount of the assets affected.

**(c) Depreciation of property, plant and equipment**

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives, after taking into account the estimated residual values, if any. The Group reviews the estimated useful lives and the estimated residual values, if any, of the assets regularly in order to determine the amount of depreciation expense to be recorded during any reporting period. The useful lives and residual values are based on the Group's historical experience with similar assets and taking into account anticipated technological changes. The depreciation expense for future periods is adjusted if there are significant changes from previous estimates.

**(d) Impairment loss for bad and doubtful debts**

The Group maintains an impairment loss for bad and doubtful debts for estimated losses resulting from the inability of the debtors to make required payments. The Group bases the estimates of future cash flows on the ageing of the trade receivables balance, debtors' credit-worthiness, and historical write-off experience. If the financial condition of the debtors were to deteriorate, actual write-offs would be higher than estimated.

#### 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(Continued)*

**(e) Write down of inventories**

The Group performs regular review of the carrying amounts of inventories with reference to aged inventories analysis, expected future sales and management judgement. Based on this review, write down of inventories will be made when the carrying amount of inventories decline below the estimated net realisable value. However, actual sales may be different from estimation and profit or loss could be affected by differences in this estimation.

**(f) Estimated impairment of goodwill, brands and trademarks**

Determining whether goodwill, brands and trademarks are impaired requires an estimation of the value in use of the cash-generating units to which goodwill, brands and trademarks have been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31 December 2006, the carrying amount of goodwill, brands and trademarks are HK\$179 million and HK\$1,780 million, respectively. Particulars of the impairment test are disclosed in note 22.

**(g) Income taxes**

As at 31 December 2006, a deferred tax asset of HK\$59 million in relation to unused tax losses has been recognised in the Group's balance sheet. The releasability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future. In cases where the actual future profits generated are less than expected, a material reversal of deferred tax assets may arise, which would be recognised in the income statement for the period in which such a reversal takes place.

#### 5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include equity and debt investments, borrowings, trade receivables, trade payables, convertible debenture and exchangeable bonds. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

**Currency risk**

Several subsidiaries of the Company have foreign currency sales, which expose the Group to foreign currency risk. In order to mitigate the foreign currency risk, foreign currency forward contracts (note 26) are entered into in respect of highly probable foreign currency forecast sales in accordance with the Group's risk management policies.

Certain trade receivables and borrowings of the Group are denominated in foreign currencies. The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arises.

**Fair value interest rate risk**

The Group's fair value interest rate risk relates primarily to fixed-rate bank borrowings (note 28). In relation to these fixed-rate borrowing, the Group aims at keeping borrowings at variable rates. In order to achieve this result, the Group entered into interest rate swaps (note 26) to hedge against its exposures to changes in fair values of the borrowings. The critical terms of these interest rate swaps are similar to those of hedged borrowings.

## 5. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

### Credit risk

The Group's maximum exposure to credit risk in the event of the counterparties failure to perform their obligations as at 31 December 2006 in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated balance sheet. In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group has no significant concentration of credit risk, with exposure spread over a number of counterparties and customers.

The credit risk for bank balances is considered minimal as such amounts are placed with banks with good credit ratings.

### Price risk

The Group's investments available-for-sale and investments held for trading are measured at fair value at each balance sheet date. Therefore, the Group is exposed to equity and debt security price risk. The management reviews the market situation and consults to the professionals to monitor the exposure periodically.

## 6. RELATED PARTY TRANSACTIONS

- (a) Transactions between the Company and its subsidiaries, which are related parties of the Company, have been eliminated on consolidation and are not disclosed in this note. Details of material transactions between the Group and other related parties are disclosed below:

The above table lists the associates of the Group which in the opinion of the directors of the Company, principally affected the results of the year or form a substantial portion of the net assets of the Group. To give details of other associates would, in the opinion of the directors of the Company, result in particulars of excessive length.

## 16. INTERESTS IN ASSOCIATES (Continued)

Notes:

- (a) No share of the net assets and results of Advanced Microsensors, Inc. is recorded as the investee is considered an associate of the Group by virtue of the Group's investment in convertible preference shares, which when converted, would constitute 45% of the equity interest of the investee.
- (b) As at December 2005, the Group had approximately 49.51% interest in Sansui Electric Co., Ltd. ("SEC"), recorded as 48.78% and 0.73% respectively as investments held for trading under current assets and investments available-for-sale under non-current assets.

During the first half year, the Group reduced its interest in SEC to approximately 29.99%. In June 2006, the directors reviewed the Group's intention of holding the interest in SEC. The Group is required to maintain a certain level of shareholding in SEC to meet its obligations under the exchangeable bonds due 2011 issued in February 2006. The Group is also considering issuing additional exchangeable bonds under similar terms in the near future. Besides, the Group has increasingly participated in the financial and operating decisions of SEC. Consequently, the directors considered it more appropriate to hold the interest in SEC as long-term and account for it as interest in associates starting from April 2006.

- (c) In June 2006, the Group disposed of 30% interest in Ross Group Plc ("Ross") to an independent third party. As a result of this transaction, the Group's interest in Ross reduced from 71% to 41%. Accordingly, Ross was reclassified from a subsidiary to an associate.
- (d) In October 2006, the Group reclassified its investment in ZS Kawa Electronics (Group) Co., Ltd. and its fellow subsidiaries ("Kawa") held under TWD Asia Limited from subsidiaries to associates. Kawa has reduced its principal activities from the manufacture of electronic products to property leasing. The Group has no longer any unilateral control over the financial and operating policies of Kawa. Consequently, the directors consider it more appropriate to account for its shareholding interests in Kawa as interests in associates.

The land and buildings of Kawa in Zhongshan, the PRC are leased to the Group as part of its manufacturing facilities. These properties, carrying a net book value of HK\$153 million as at 31 December 2006, were valued at HK\$287 million by Zhongshan Caixing Assets Appraisal Co., Ltd, independent professional surveyors, on an open market value basis at the same date. The investment in Kawa has not been increased for the Group's share of the difference between the properties' carrying amounts in Kawa's books and their respective fair values since the properties are leased by the Group.

- (e) On 5 December 2005, the Group acquired a 37% equity interest in Emerson Radio Corp. ("ERC"), a company listed on the American Stock Exchange of the United States of America, from an independent third party. The investment in ERC was accounted for as an associate at 31 December 2005. The Group has since then continuously increased its shareholding in ERC through purchase of stock on the exchange. The Group has also increasingly exercised its control over ERC's operating and financial policies. On 30 March 2006, a director of the Company was appointed as Chairman and Chief Executive Officer of ERC. Accordingly, the directors consider ERC as a subsidiary of the Group since that date. As at 31 December 2006, the Group's effective interest in ERC was 51% (note 42).
- (f) The summarised financial information in respect of the Group's associates is set out below:

The CLN has a nominal value of US\$10 million (HK\$78 million), is not transferable and is linked to US\$50 million Zero Coupon Guaranteed Exchangeable Bonds (“Exchangeable Bonds”) issued by Hi-Tech Precision Products Ltd to independent third parties (note 31). The CLN is unsecured and bears interest at 3 months LIBOR plus 2.5% p.a. and will mature at the issue price of US\$11.8 million in February 2009. If a credit fault event occurs (including failure to make interest payments on the Exchangeable Bonds) before February 2009, the CLN will be exchanged for US\$10 million Exchangeable Bonds. The CLN is classified as available-for-sale financial assets.

Accumulated amortisation at 31 December	<u>(228)</u>	<u>(228)</u>
Carrying amount at 31 December	<u>1,780</u>	<u>1,311</u>

Prior to 1 January 2005, brands and trademarks are amortised over their estimated useful lives but not more than 20 years and stated at their cost less accumulated amortisation and impairment losses.

On 1 January 2005, the Group reassessed the useful lives of the brands and trademarks and concluded that all brands and trademarks have indefinite useful lives. As a result, the brands and trademarks are not subject to amortisation from 1 January 2005 onwards, but are tested for impairment annually or more frequently when there are indications of impairment. Particulars of the impairment testing are disclosed in note 22.

Notes :

- (a) The deferred development costs have definite useful lives and are amortised on a straight-line basis over 3 to 5 years.
- (b) On 28 December 2006, the Group entered into an agreement with an independent third party for the disposal of 15% of its equity interest in Capetronic Group Ltd ("Sales Shares"), a wholly-owned subsidiary of the Group, for a consideration of approximately HK\$245 million. On the same date at completion, approximately HK\$24 million of the consideration was received by the Group. The balance of the consideration of approximately HK\$221 million is payable by seven equal annual instalments by the purchaser. The first annual instalment of approximately HK\$32 million is classified as current assets while the balance of approximately HK\$189 million is classified as non-current assets. The outstanding balance of the unpaid consideration is secured by the Sales Shares and bears interest charged at LIBOR plus 1.5% p.a.

Prior to 1 January 2005, the goodwill / (negative goodwill) was (amortised) / released to the income statement on a straight-line basis of 20 years. According to HKFRS 3 and HKAS 36, the Group ceased amortisation of goodwill from 1 January 2005 and eliminated the accumulated amortisation of goodwill as at 31 December 2004 with the cost of goodwill, the carrying amount of negative goodwill was derecognised with a corresponding adjustment to the retained earnings at 1 January 2005.

Goodwill arising on acquisitions on or after 1 January 2005 is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses. Particulars of the impairment testing are disclosed in note 22.

From 1 January 2005 onwards, any discount on acquisition of a subsidiary is recognised immediately in the income statement.

*Note:*

The cash-generating unit to which goodwill of HK\$118 million was allocated was disposed of during 2004. However, the goodwill was not written off in the year of disposal and continued to be carried forward in the balance sheet. Such prior period error was corrected retrospectively by reducing the same amount against the opening balance of the retained profits at 1 January 2005.

**22. IMPAIRMENT TESTING ON GOODWILL, BRANDS AND TRADEMARKS**

Goodwill, brands and trademarks are allocated to the Group's cash-generating units ("CGU") identified according to business segment as follows:

	Goodwill		Brands and trademarks	
	<u>2006</u> HK\$ million	(Restated) <u>2005</u> HK\$ million	<u>2006</u> HK\$ million	<u>2005</u> HK\$ million
Branded distribution	115	87	1,780	1,311
Electronics manufacturing services	64	64	-	-
	<u>179</u>	<u>151</u>	<u>1,780</u>	<u>1,311</u>

The recoverable amount of the CGU is determined based on value-in-use calculations. These calculations use cash flow projections based on financial projections approved by management. A five-year period financial budget is used for testing the impairment of goodwill. The brands and trademarks are considered by management as having indefinite useful lives. A ten-year financial budget base on management's approved long-term plans of product development and business expansion is used for testing the impairment of these brands and trademarks.

The discount rate used for value-in-use calculations is in a range of 10% to 13% (2005: 12% to 15%). Management determined the budgeted gross margin based on past performance and its expectation for market development. The weighted average growth rates of 2% to 3% used are consistent with the forecasts included in industry reports.

**30. CONVERTIBLE DEBENTURE**

On 5 December 2005, the Company issued a principal amount of US\$26 million (equivalent to HK\$202 million) Convertible Debenture ("Convertible Debenture") at par value as part of the purchase consideration of a 37% equity interest in ERC (note 16). The Debentureholder is entitled to require the Company to convert the whole or any part(s) of the principal amount outstanding under the Convertible Debenture into ordinary shares in the capital of the Company at any time between the date of issue of the Convertible Debenture and the settlement date on 5 December 2008 at a conversion price of HK\$7.16 per ordinary share of the Company, provided that such part to be converted shall not be less than Hong Kong dollar equivalent to US\$5 million and shall be in a multiple of US\$1 million. If the Convertible Debenture has not been converted, it will be redeemed on 5 December 2008 at par, provided that the Company shall have the right, at any time by a 30-day prior written notice to debentureholder, to early redeem the whole or part of the outstanding principal amount of this Convertible Debenture. No interest for the period from the issue date to the day prior to the first anniversary of the issue date and 3% per annum for the period from the first anniversary of the issue date on 5 December 2005 until the maturity date on 5 December 2008.

The Convertible Debenture was split between the liability and derivative instrument. The derivative instrument element is presented in note 26.

The fair value of the liability component of the Convertible Debenture determined based on the present value of the estimated future cash outflows discounted at the prevailing market rate for an equivalent non-convertible loan at the balance sheet date.

**31. EXCHANGEABLE BONDS ISSUED BY A SUBSIDIARY**

On 22 February 2006, Hi-Tech Precision Products Ltd (“Hi-Tech”), a wholly-owned subsidiary of the Group, issued a principal amount of US\$50 million (equivalent to HK\$388 million) Zero Coupon Guaranteed Exchangeable Bonds (“Exchangeable Bonds”) at par value to independent third parties. The holder of each Exchangeable Bond will have an exchange right to exchange such Exchangeable Bond for SEC shares at the exchange price of 40.36929 Yen per SEC share during the period beginning on and after 23 March 2006 and up to the earlier of (i) 8 February 2011 (but in no event thereafter), or (ii) if such Exchangeable Bonds shall have been called for redemption prior to 8 February 2011, then up to on the third business day immediately prior to the date fixed for redemption thereof. Assuming full exchange of the Exchangeable Bonds at the exchange price, the Exchangeable Bonds will be exchangeable into 146,683,283 SEC shares, representing 10.76% of the common stocks of SEC (subject to adjustment).

The Exchangeable Bonds are split between the liability and derivative instrument. The fair value of the liability component of the Exchangeable Bonds has been determined based on the present value of its future cash outflows discounted at the prevailing market yield of non-convertible loans with similar grading as the Exchangeable Bonds as at the balance sheet date.

Towards the end of the 2005, the Hong Kong Inland Revenue Department ("HKIRD") initiated a field audits on certain subsidiaries of the Group for the financial years from 1998 to 2005 for the purpose of ascertaining the Hong Kong tax liabilities of these subsidiaries. The Group has appointed tax advisers in Hong Kong to advise them with respect to the field audits. The HKIRD has granted the Group time to collate information requested by the HKIRD and in the meantime has issued protective assessments to which the Group has filed objections. In addition, additional assessments were issued to certain subsidiaries for which Tax Reserve Certificates of amount HK\$45 million have been purchased during the year and HK\$35 million have been purchased in March 2007. The Group's tax advisers had advised that at this preliminary stage it is premature and impractical to determine whether the field audits will result in any additional tax liabilities for the subsidiaries. In the circumstances, the directors are of the opinion that the Group's Hong Kong tax provision is sufficient and it is not feasible and they are not able at this time to make any judgement or determination as to whether the field audit will result in any additional tax liability. Accordingly no provision for any liability that may result has been made in the financial statements.

**40. PROVIDENT FUND SCHEMES**

From 1 December 2000 onwards, all the staff of the Group in Hong Kong were offered the opportunity to join the Mandatory Provident Fund Scheme (the “MPF Scheme”), introduced by the Hong Kong Special Administrative Region. Under the MPF Scheme, the employees are required to contribute 5% of their monthly salaries up to a maximum of HK\$1,000 per employee and they can choose to make additional contributions. The employer’s monthly contributions are calculated at 5% of each employee’s monthly salaries up to a maximum of HK\$1,000. The employees are entitled to 100% of the employer’s mandatory contributions upon their retirement at the age of 65 years old, death or total incapacity.

The PRC employees of the subsidiaries in the PRC are members of the pension scheme operated by the PRC local government. The subsidiaries are required to contribute a certain percentage of the relevant payroll of these employees to the pension scheme to fund the benefits. The only obligation for the Group with respect of the pension scheme is the required contribution under the pension scheme.

The staff in United States of America who wish to participate in the plan may contribute upto the legal limits, to which a specified percentage is matched by the subsidiaries in accordance with their plans.

The Group also operates various retirement benefit schemes for qualifying employees of its overseas subsidiaries, including subsidiaries in the Denmark, Singapore and Malaysia. The assets of the retirement benefit schemes are held separately from those of the Group, in funds under control of trustees. The Group contributes a certain percentage of the relevant payroll costs to the schemes, which contribution is matched by employees.
